Not bad but there's no way to fast dodge 1 block space away to dodge the most unfeasible part of the deal

This game is only worth some minutes of your time but i won't blame them! It is quite a good game even without option to dodge or more accurate way to play without just having the speed up and bomb limits that means nothing while it goes too fast or bombs aren't launched faster to go up with the speed of the game

Done!

i expect better games though in the future than just flash out games like these that are worth almost nothing but still fun concept. Not bad but there's no way to fast dodge 1 block space away to dodge the most unfeasible part of the deal
